Head Start Body Start Grant Recipients Receive a 25% Discount!

EC SPARK "Balance & Scoot" Outdoor Play Equipment Package: \$1,275.93 (includes shipping).

This package focuses on two very fun themes: First, years of observing physical activity at Head Start Centers have told us that children love to scoot! This package provides you with fast and fun – but SAFE! – scooters and a special cart for storage. An Original Innovation "Tun-L-Course" adds to the fun! The Tun-L-Course is high enough and wide enough for children to scooter through sitting up, and the free-standing tunnels can be arranged in straight or curved pathways.

Second, balance is particularly important to develop in young children. This kit provides a creative WeeKidz balance beam set with everything you need to have your children hold that pose! Original FloorStuff feet and bases mark locations to stand and point directions for pathways, station play and creative movement.

Package includes the Super Stunts unit with **11 lessons** from the 2011 Early Childhood SPARK curriculum manual at a **50% discount** and a **FREE** year of access to SPARKfamily.org! SPARKfamily.org is a special, password-protected website where educators can access a library of effective digital tools to support your early childhood physical activity program, including instructional videos and skill cards in English and Spanish.

This package will get your children going!
